Experience

Partner | Engineering, cLabs

10/2021 - 01/2026 (4 years 4 months)

📍 Strasbourg, France

Develop and maintain SDKs used by the all the protocol users. Implement brand-new and refreshed web and native UIs. Contribute to the self.xyz react-native app. Maintain and modernize the celo CLI. Build countless integrations with wallet providers, as well as collaborate on ledger sdk and app. Streamline the publishing process through CI refactoring.

Senior Backend Engineer, Passbase

09/2020 - 08/2021 (1 year)

📍 Berlin, Germany

Develop and maintain comprehensive API specifications for our backend services, including OCR, AML, and Fraud Detection, while implementing robust server-side libraries in Go, Node.js, Java, Python, Ruby, and PHP. Collaborate closely with our Chief Security Officer to design and establish a zero-trust architecture. Additionally, provide support to the web front-end development as needed.

Lead Software Engineer, Datawallet

11/2015 - 08/2020 (4 years 10 months)

📍 Berlin, Germany

Develop and maintain REST and GraphQL APIs, web dashboards, Chrome extensions, and mobile applications, while also managing DevOps responsibilities. Progressed from a one-man-team to an effective team leader and mentor, fostering a collaborative work environment.

Developer, Sociomantic Labs

02/2014 - 11/2015 (1 year 10 months)

📍 Berlin, Germany

Maintain and improve the whole tracking eco-system, mainly in Javascript, but also writing services in node, python, or php. Gather information from users, generate targeted banners for millions of users across the world.

Intern, Orange Business Services

08/2013 - 01/2014 (6 months)

As a Graduating Intern, my project was the migration of a customer application written in Visual Basic into a cross-platform application for computers, tablets, and smart-phones (iOS and Android), with an angular application.

Education

VIA University College

2012 - 2014 (2 years)

Bachelor's degree of Engineering, Information Technology

IUT Robert Schuman

2010 - 2012 (2 years)

DUT, Information Technology
